

Things to think about before meeting with your Design Team

New House

Take a few minutes before you meet with your Design Team and think about the following:

1. What style of house would you like?

2. How many years do you expect to live in this house?

3. What are your ten-year expectations (growing family, downsizing, etc.)?

4. How much privacy do you want?

5. Will you be doing a lot of entertaining or socializing?

Space for adding pictures for your dream house.
